

I'm Learning about
AUSTRALIA

Australia is the only country that takes up a whole continent.

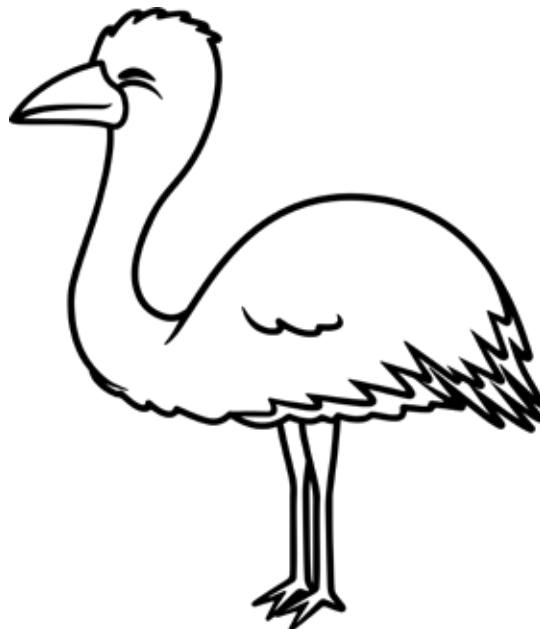

The Australian flag features the Union Jack and the Commonwealth Star.

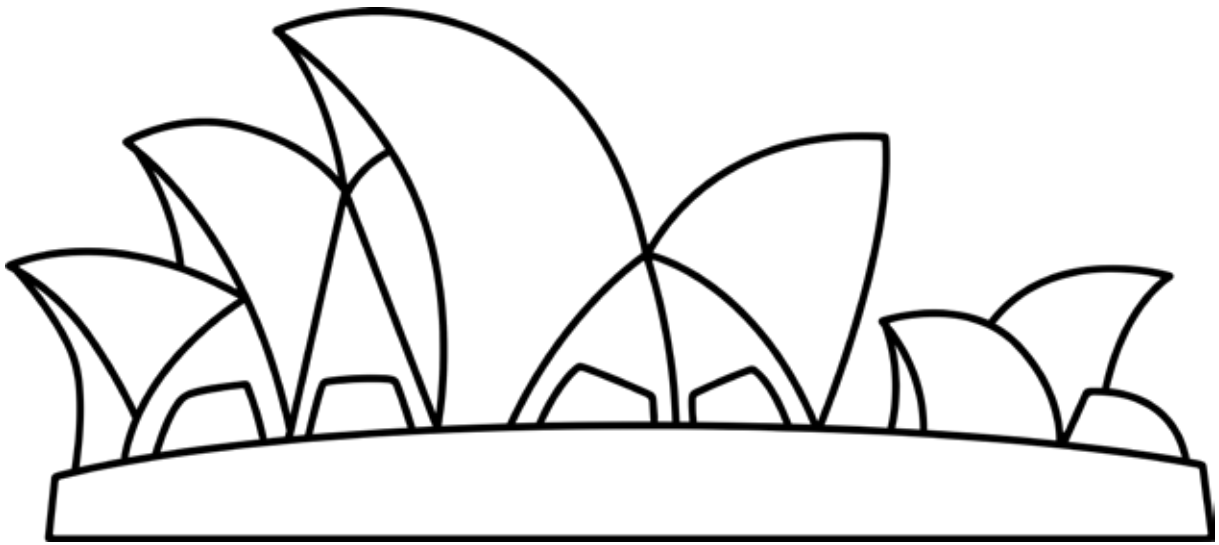

It's famous for its unique wildlife, including kangaroos, koalas, and the Great Barrier Reef.

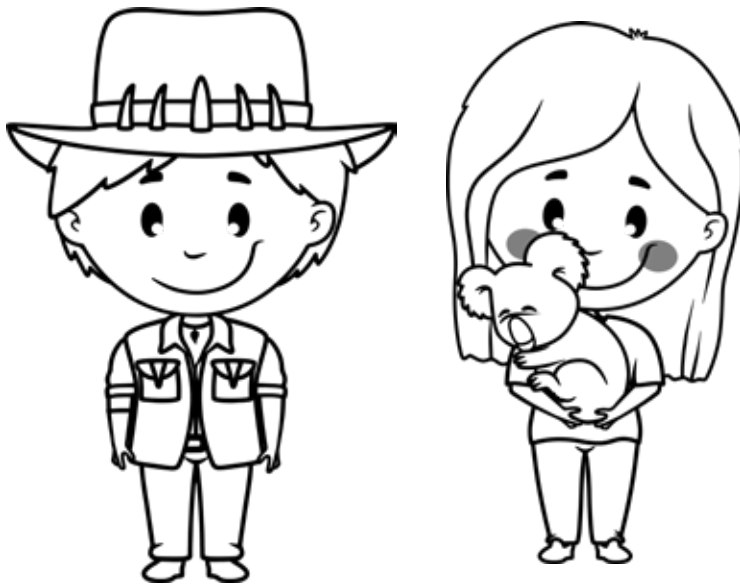

Kangaroos are the national animal of Australia.

Australia is also the home to Emus, which are large, flightless birds endemic to Australia, known for their speed.

The iconic Opera House is one of the world's most famous landmarks, which is right in Sydney, Australia.

Aboriginal people make up 2% of the population of the country. Most of them still live in the desert areas of the Australian outback.

The 'outback' is the vast, dry and remote inland parts of Australia, which has a notable rock formation called the Uluru.
